Dal

Urbin chair

The Dal Urbin side chair is one of our most versatile products. This chair has a very confident feel about it, the fully welded frame not only contributes to a very solid feeling, it also means there is no assembly of the frames required. The clever wall-saver leg design means the legs will come up against the wall skirting before the back can mark the wall.

Arms or no arms, castors or glides, mesh back or upholstered back - configure the Urbin to suit your requirements.

Standard features

- Strong, fully welded frame
- Upholstered and assembled in Australia
- Wall-saver leg design
- Stackable
- Supportive backrest
- 150kg weight rating
- 6 year warranty
